New CTBUH Staff Positions
The Council on Tall Buildings and Urban Habitat – the world’s leading body in the field of tall buildings, and the recognized source of global information in this field – is making two new staff appointments, in conjunction with the prestigious College of Architecture at the Illinois Institute of Technology (IIT), Chicago.

Research & Working Groups Manager
The Research & Working Groups Manager will initiate and spearhead a new CTBUH Research Division, compiling research proposals in conjunction with relevant partners, leveraging research funding, coordinating multi/cross-disciplinary tall building research, and eventually leading a team of researchers. In addition, the successful candidate will support, manage and coordinate the CTBUH working groups, which consist of professionals from within the CTBUH membership focused on specific disciplinary areas of tall buildings.

The challenges of this role require a prior background in research. In particular the successful candidate should ideally evidence:

- the writing of significant research proposals
- the obtaining of research funding
- the undertaking of funded research
- the management of a group focused on an output.

While this candidate can be drawn from any of the building professions – architecture, engineering, construction, financial etc – a prior experience of tall buildings would be considered an advantage. Ideally candidates should hold a minimum of a PhD qualification. It is expected that this position will be an IIT faculty appointment.

Operations Manager
The Operations Manager will be responsible for the management and operation of headquarters office systems, including: accounting responsibility for Council finances (including accounting software); all aspects of CTBUH membership; keeping physical and electronic records; personnel/human resources support; providing support to the Executive Director, staff and CTBUH Leaders internationally; coordinating meetings and correspondence; representing the Council at international events, etc.

Salary & benefits will be commensurate with background and experience. Illinois Institute of Technology is an Equal Opportunity/Affirmative Action Employer.

Applications
Applications should include a letter describing suitability to the role envisaged; a full curriculum vitae; evidence of experience relevant to the role; and three academic or professional references. For more information, contact Patti Thurmond, CTBUH Operations Manager at pthurmond@ctbuh.org.
